

A regional resource for joint replacement, trauma, orthopedics, sports medicine & spine care

Thirty years ago an orthopedic surgeon would treat all types of joint problems. With ever-increasing new technology and treatment advances specific to different joints and bones, that's changed dramatically.

Orthopedics has become super-specialized with surgeons now having advanced "fellowship training" in a specific body part and all the most advanced minimally invasive and robotic surgical techniques.

The orthopedic specialists at Celebration Orthopaedics treat patients from across Central Florida at its Orlando-area office. This includes caring for orthopedic trauma, fractures and all types of joint pain. The most advanced hip replacement and knee replacement surgeries are also provided. Many patients are able to have their surgeries in an ambulatory surgery center so they are home later the same day to recover in the comfort of their own home.

Treatment of back and neck pain, along with scoliosis, is provided through the multi-disciplinary spine center Spine Group Orlando which receives complex spine problems from

across Florida and other countries. Spine Group Orlando provides non-surgical and surgical treatment of back and neck pain and scoliosis.

The orthopedic team also recognizes the complex issues related to caring for on-the-job

injury. Treatment of the work-related injury is compressed and accelerated. The employer and case manager are informed of the treatment plan and when the worker may safely return to the workplace.

For more than 25 years Celebration Orthopaedics has handled joint pain, sports medicine and spine problems for patients across Central Florida through its Orlando office.

Celebration Orthopaedics has a downloadable JOINT HANDBOOK PDF on its web site at CelebOrtho.com that includes knee pain symptom charts and when joint replacement should be considered.

A REGIONAL RESOURCE FOR CENTRAL FLORIDA

Knee and Hip Joint Replacement

Fellowship-trained orthopedic surgeons provide the most advanced options for hip replacement and knee replacement.

Sports Medicine

Sports medicine specialists provide non-surgical and surgical treatment options for those with orthopedic injury, to speed rehab and a quick return to their favorite sport and activity.

Upper Extremity Problems

Orthopedic surgeons specialize in hand problems, including carpal tunnel syndrome, elbow injury and shoulder issues, including rotator cuff injury and shoulder replacement.

Foot & Ankle Treatment

Foot and ankle specialists treat all lower extremity problems.

Trauma / Urgent Orthopedic Injury

Orthopedic specialists manage all aspects of orthopedic injury.

Spine • Back & Neck pain / Scoliosis

A dedicated multi-disciplinary spine center with Spine Group Orlando at Celebration Orthopaedics treats back and neck pain along with scoliosis.

Regenerative Medicine

Specialists use Platelet Rich Plasma to use the body's own healing properties to speed healing.

ORTHOPEDICS, SPORTS MEDICINE & JOINT REPLACEMENT

Brad Homan, D.O.

Board Certified Orthopaedic Surgery

Fellowship Trained in Arthroscopy & Sports Medicine

Dr. Homan specializes in Sports Medicine and General Orthopaedics. Dr. Homan is the team physician for Impact Wrestling; Tom Shaw Performance Camps and 7 local high schools sports teams. Dr. Homan provides orthopaedic coverage for the Champs Bowl and Capital One Bowl. He also provides orthopaedic coverage for Disney endurance events. He is President of Celebration Orthopaedic and Sports Medicine Institute.

Matthew Johnston, D.O.

Board Certified Orthopaedic Surgery

Fellowship Trained in Joint Replacement

Dr. Johnston specializes in Joint Replacement Surgery, Sports Medicine, General Orthopaedics, and treatment of Arthritis of the Hip and Knee. Dr. Johnston is a South Florida native whose education and experience has allowed him to specialize in the field of Sports Medicine. He attended Tri-State University in Indiana. From there he obtained his Doctor of Osteopathic Medicine at Nova Southeastern University. He completed his traditional internship and orthopedic surgery residency training at Ohio University. He completed a fellowship in Joint Replacement Surgery at the Florida Orthopaedic Institute, receiving extensive training in the diagnosis and treatment of arthritis, failed total joint replacement and osteonecrosis.

David Lalli, D.O.

Board-Certified Orthopedic Surgeon

Fellowship Trained in Sports Medicine

Dr. David Lalli went to University of Miami for his undergraduate studies and then earned his medical degree from Nova Southeastern University in Ft. Lauderdale. He then entered active duty service in the US Navy where he treated active duty marines and sailors including serving overseas tours in Afghanistan during Operation Enduring Freedom. During his 13 years of service, he completed an Orthopaedic Residency program at National Naval Medical Center in Bethesda, Maryland. Dr. Lalli then completed a Sports Medicine Fellowship at the prestigious Hughston clinic. The many conditions he treats includes shoulder instability, rotator cuff disease, arthritis of the shoulder. He also treats knee problems including ligament injuries such as ACL tears and knee arthritis. His practice also addresses hip, ankle, elbow and hand.

Jose Amundaray, M.D.

Board-Certified Orthopedic Surgeon

Fellowship Trained Adult Reconstruction

Dr. Jose Amundaray specializes in adult joint reconstruction, with more than 15 years experience practicing in Florida. He is bilingual in Spanish and English. He completed his undergraduate B.S. degree, medical doctorate and orthopaedic surgery residency at the University of Puerto Rico in 1999. He then completed an Adult Reconstruction Fellowship at the Florida Knee and Orthopaedic Centers in Clearwater in 2000. Dr. Amundaray specializes in treating degenerative conditions affecting the hip and knee. He has performed thousands of joint replacement surgeries, and he is one of the most experienced partial knee replacement surgeons in Florida.

Douglas McDonald, M.D.

Board Certified Family Medicine/Sports Medicine

Fellowship Trained in Primary Care Sports Medicine

Dr. Douglas McDonald is a Primary Care physician specializing in Sports Medicine. Dr. McDonald earned his medical degree from the University of Colorado. He completed his residency in Family Medicine at Swedish Medical Center in Denver and then completed a Primary Care Sports Medicine fellowship at Michigan State University. Dr. McDonald was a team physician for the University of Florida Gators athletics for 6 years. More recently he has been the head team physician for the Orlando Solar Bears hockey team and has been head team physician for Rollins College, Winter Park High School, and for the Orlando Pride women's professional fast pitch team. He works with the Atlanta Braves with their Spring training and minor league teams at Disney's ESPN Wide World of Sports.

HAND, WRIST & ARM

Joseph E. Robison, M.D.

Board-Certified Orthopedic Surgeon

Fellowship Trained in Hand/Upper Extremity & Microsurgery

Dr. Joseph E. Robison completed a fellowship in hand, upper extremity and microsurgery at The Cleveland Clinic and MetroHealth Medical Center in Cleveland, Ohio. Dr. Robison attended The University of Florida for both his undergraduate degree and medical school training. After medical school, he completed his Residency in Orthopaedic Surgery at the prestigious Ochsner Clinic. He has a Subspecialty Certificate in Surgery of the Hand. Dr. Robison's specializes in carpal tunnel syndrome, scaphoid and distal radius fractures, arthritis of the hand and peripheral nerve surgery. He previously served as Chief of Staff at AdventHealth Kissimmee.

FOOT & ANKLE

Joshua Britt, DPM

Board-Certified Podiatrist

Specializing in Foot & Ankle Surgery

Dr. Joshua R. Britt was born in Hattiesburg, Mississippi and raised in Baton Rouge, Louisiana. Dr. Britt attended Southeastern Louisiana University and earned an undergraduate degree in biochemistry. Dr. Britt attended Barry University's School of Podiatric Medicine in Miami, Florida. He completed his residency training at the Florida Hospital East Orlando Podiatric Medicine and Surgery program. Dr. Britt specializes on foot pain treatment and sports medicine; partnering with running clubs to prevent and treat running related injuries. Dr. Britt specializes in trauma, sports medicine, reconstructive foot and ankle surgery, pediatric foot issues, and general foot health care. He speaks fluent Spanish.

SPINE - BACK & NECK PAIN / SCOLIOSIS

Matthew Willey, MD

Board-Certified Physical Medicine & Rehabilitation

Fellowship-Trained in Interventional Spine

Dr. Willey specializes in helping patients with back pain and neck pain resolve symptoms through nonsurgical treatment options, including spinal injections. Dr. Willey received his undergraduate degree and Medical Degree at University of Florida. He completed his residency in Physical Medicine and Rehabilitation at the University of Birmingham in Alabama. Dr. Willey completed a PASSOR-accredited fellowship in Interventional Spine and Sports Medicine. He is trained in the latest interventional and minimally invasive techniques to treat spinal and musculoskeletal pain along with ultrasound guided and regenerative interventional techniques. Orlando Family Magazine named Dr. Willey a Top Physician for Pain Management and Orthopedics.

Maahir Haque, M.D.

Board-Certified Orthopedic Surgeon

Fellowship-Trained in Spine Surgery

Specializing in Minimally Invasive Spine Surgery

Dr. Maahir Haque specializes in minimally invasive spine surgery which uses tubular retractors and reduces the length of the incision to enable many patients to go home the same day for a faster and less painful recovery. Dr. Haque created the Spine Group Orlando spine center at Celebration Orthopaedics and is now referred complex spine patients from across the State of Florida and other countries. Dr. Haque is trained in revision spine surgical procedures, complex reconstructive spinal surgeries and the most advanced motion-preserving procedures including artificial disc replacement. Dr. Haque was a clinical instructor at Brown University and currently holds a faculty appointment at the University of Central Florida.
